

Allied Health Management Plan - PHYSICAL

This management plan will be considered by SA CTP Insurers when deciding whether to fund a service. Interventions should be aimed at **functional recovery** with achievable and measurable goals, consistent with available **research evidence** and clinical guidelines, and encouraging the injured claimant's **self-management**. As a general rule and to be confident of payment, pre-approval should be obtained from the Insurer for payment of services. Providers may charge for completion of the management plan in accordance with ReturntoWorkSA fee schedule. Find out more from the CTP Regulator's Injury Recovery & Early Intervention Framework, available at: www.ctp.sa.gov.au
